† Crizal Kids UV™ lenses are bundled products. They come as a single vision polycarbonate lens, coated with the respective Crizal® No-Glare lens treatment.

FOR THE CLEAREST VISION POSSIBLE™

Reduce glare

Glare, poor night vision, and reflection are major concerns for patients

- Less reflection during the day and safer nighttime driving

Resist smudges

Lenses that smudge easily are a major source of frustration

- Fewer smears and fingerprints mean less visual distraction

Resist scratches

Scratch resistance is the benefit patients want most in No-Glare lenses

- Protection against everyday wear and tear, with few scratches from cleaning

Repel dust

Patients are bothered by dust, dirt, and lashes clinging to static on the inside of lenses

- Crizal® repels these particles, so lenses stay cleaner longer

Repel water

Patients want lenses that stay clean in outdoor environments

- More convenient to wear outdoors

Comprehensive UV protection

UV protection is needed every day, but many patients don't know this

- Essential protection against UV light

Blue-violet light protection

Crizal® Prevencia® selectively filters Harmful Blue Light* for increased protection at all times

- Combine any Crizal® lens treatment with Essential Blue Series™ lenses to block up to 20% of Harmful Blue Light

*Harmful Blue Light is the blue-violet wavelength between 415-455nm on the light spectrum believed most toxic to retinal cells.

CRIZAL® PRODUCT FAMILY

Crizal easy^{uv}™

- More durable than ordinary lenses**
- Easier to clean than ordinary lenses

Crizal ALIZÉ^{uv}™

- All the benefits of Crizal Easy UV lenses, PLUS:
 - Superior protection against smudges, oil, and water
 - Lenses stay cleaner longer

Crizal AVANCÉ^{uv}™

- All the benefits of Crizal Alizé UV lenses, PLUS:
 - 2x more scratch resistance to protect lens investment
 - Repels dust and dirt for clearer vision and less cleaning
 - Plus, UV protection has been improved with E-SPF® 35

Crizal SAPPHIRE[®] 360°UV

- All the benefits of Crizal Avancé UV lenses, PLUS:
 - Best-in-class transparency
 - Reduction of reflections from any angle of light

Crizal PREVENCIA®

- Selectively filters at least 20% of Harmful Blue Light
- Combine Crizal Prevencia with Essential Blue Series lenses for up to 30% protection from Harmful Blue Light

*Harmful Blue Light is the blue-violet wavelengths between 415-455nm on the light spectrum believed most toxic to retinal cells.

**Ordinary lenses are defined Aspheric lenses with applied hardcoat only

Applies to the Crizal lens process

CRIZAL® NO-GLARE LENSES

Worn and trusted by millions of people worldwide.

Optimal UV protection in a clear lens

The higher the E-SPF® Index, the greater the level of UV protection provided by the lens

E-SPF is an index rating the overall UV protection of a lens. E-SPF was developed by Essilor International and endorsed by third party experts. The E-SPF index relates to lens performance only and excludes direct eye exposure that depends on external factors (wearer's morphology, frame shape, position of wear).
