

Shamir Autograph II+®

Tailored for Your Everyday

Shamir Autograph II+®

Progressive lenses shouldn't have to be difficult to wear, nor should they be "one-size-fits-all." Shamir Autograph II+® is tailored to you, and has been designed with full comfort in mind.

ReCreating Perfect Vision®
shamir.com

Personalized for maximum comfort throughout your day

As we become increasingly more connected within our environments, our lenses should continue to adapt to our needs. Shamir **Autograph II+®** is a progressive lens designed for everyday use, and incorporates the latest technologies to ensure both a positive ergonomic and visual experience while completing day-to-day tasks.

Ergonomically focused

Utilizing Natural Posture™ technology to adjust the position of the reading zone in your lenses, Shamir **Autograph II+®** ensures the most ergonomic comfort based on your prescription.

Without Natural Posture™

Improper Posture
Causing Discomfort

With Natural Posture™

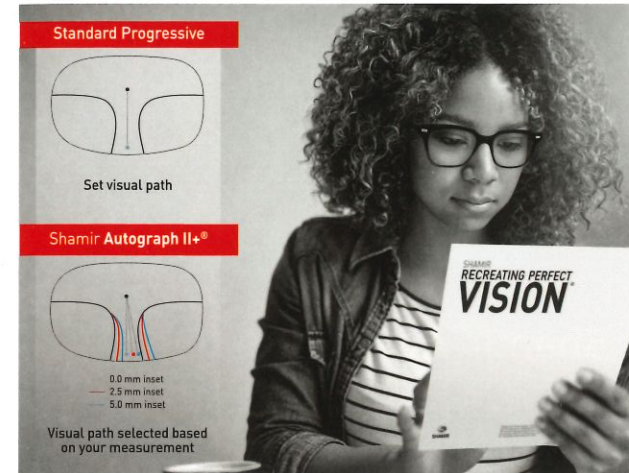

Natural Ergonomic Posture

Designed with you in mind

Shamir **Autograph II+®** incorporates Close-Up™ technology to ensure enhanced visual comfort. Based on specific measurements that your eye care professional takes, **Autograph II+®** ensures that your eyes follow a more natural visual path when you're viewing objects at both near and intermediate distances.

Incorporating As-Worn Technology™, Shamir **Autograph II+®** is optimized specifically for you based on the frame you select. This specialized feature isn't available in standard progressive lenses - it's just another reason **Autograph II+®** is right for you!

The comfort Shamir Autograph II+® has in store...

- The reading area in your lenses is in the optimal position, so you'll enjoy a more natural posture.
- Enjoy a reading area positioned specifically for your visual requirements.
- Personalized to meet your precise visual needs based on your visual requirements, chosen frame and wearing style.
