

## Shamir Computer™ & Shamir WorkSpace™

Seeing that most of us don't live via the barter system anymore, work is a large part of our week. What may not be as obvious is the need for a visual solution that helps us get through our work day comfortably.

Since you're not at work, let's figure out which lens meets your daily occupational needs.

## Shamir Computer™ & Shamir WorkSpace™

See the office in a whole new light by defining your work environment.

## Defined for your work environment.

We all have different responsibilities while at work and the genius scientist at Shamir realized this. To ensure you have the best visual solution for your day-to-day tasks, they've determined that it's important to understand how much you need to see at work.

### Ergonomics and your vision.

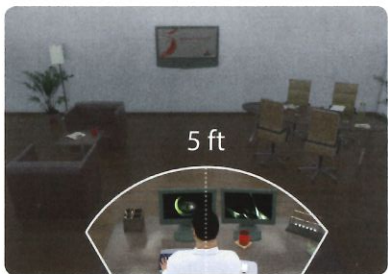

Computer Vision Syndrome (CVS) affects 80% of computer users. If you suffer from headaches, neck aches, backaches, eye strain or fatigue while at work, then you fall into this group! Shamir's scientists understand the need for clear vision and being comfortable at work, which is why they created Shamir Computer™ and Shamir WorkSpace™.

You're informed...Now what's the best solution for you? Do you require vision that's wide and clear so you can see all of the items on your desk? Or do you need to see a little bit further away?

## Shamir Computer™

### When you're focused on your immediate surroundings.

Don't let the name fool you, Shamir Computer™ lens is perfect for *any* task performed within **5ft**. Providing a wide field of near and intermediate vision, Shamir Computer™ is the lens for you if you concentrate on paperwork, work with small tools, or stare at a computer for the majority of your day. Shamir Computer™ offers a far greater depth of field than that offered by conventional reading lenses.

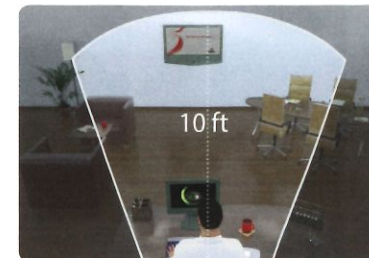

**Shamir Computer™:** Excellent vision for close tasks with an optimal depth of field up to 5ft.

## Shamir WorkSpace™

### When you need clear vision here and there.

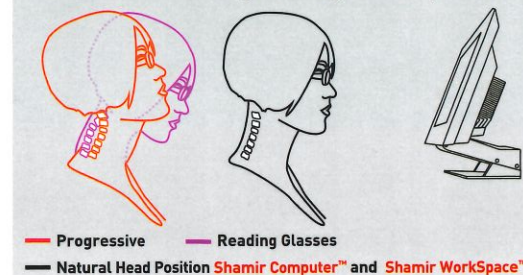

Shamir WorkSpace™ is the best solution when your work priorities are both mid-distance *and* near viewing. It offers a greater depth of field, up to **10ft**. This advanced, high quality lens allows you to have sharp vision whether you need to focus on your desk, across the room or while moving around within your workspace.

**Shamir WorkSpace™:** Excellent vision for close tasks or mid-distance viewing with an optimal depth of field up to 10ft.

Other visual solutions aren't optimized for occupational tasks and can cause you to tilt your head up and down to see objects clearly leaving you with aches and pains. Shamir Computer™ and Shamir WorkSpace™ apply the concept of Natural Posture™, allowing you to view your computer or look across the room with the most ergonomic posture.

### Natural Posture™: Allowing for an Ergonomic Experience

## Shamir Computer™ & Shamir WorkSpace™, enhanced performance at work:

- Meets the needs of your work environment
- Enjoy clear vision, whether you need it up to 5ft or 10ft
- Experience more natural posture throughout your day
- Alleviates symptoms of CVS
