

YOU'RE READY NO MATTER WHAT LIGHT YOU'RE IN

You're inside. You're outside.
Your daily life keeps you
moving back and forth
between indoor light
and bright sunshine.
When your lenses
seamlessly adapt to
every situation,
you always see life
in the best light.

SEE MORE.
DO MORE.

Transitions® Light Intelligent Lenses™ automatically adapt to protect your eyes indoors and outdoors, optimizing the amount of light that reaches your eyes.

Transitions lenses even block 100% of UVA/UVB rays while helping to protect your eyes from Harmful Blue Light*, both indoors and out. There are options for most frames and prescriptions and for every lifestyle and age.

Indoors

Outdoors

Automatically adjust to changing light conditions.

Transitions lens shown here in Grey.

*Transitions lenses block at least 20% of Harmful Blue Light indoors and at least 85% of Harmful Blue Light outdoors. Harmful Blue Light is the blue-violet wavelengths believed most toxic to retinal cells, which lie between 415–455nm on the light spectrum.

*Based on achieving the highest weighted composite score among main everyday photochromic lenses across measurements of key photochromic performance attributes weighted by their relative importance to consumers.

**CR607 products fade back to clear 2 minutes faster. Claim is based on tests across materials on grey lenses, being the most popular color, fading back to 70% transmission @ 23°C. CR607 products activate to a category 3 darkness 15% faster. Claim is based on tests across materials on grey lenses, being the most popular color, achieving 18% transmission @ 23°C.
