Maximum UV protection for the best vision under the sun  
Eliminates glare for sharp outdoor color perception  
Exceptional scratch resistance and easy to clean

\*Accommodative relief found in Eyezen+ designs 1, 2, 3, and 4.

\*\*Harmful Blue Light is the blue-violet wavelengths found between 415-455nm on the light spectrum believed most toxic to retinal cells. Rosenfield M, Hue JE, Huang RR, Bababekova Y. (2012); Rosenfield (2016).

\*\*\*Based on achieving the highest-weighted composite score among main everyday photochromic lenses across measurements of key photochromic performance attributes, weighted by their relative importance to consumers.
